

EZLogin

by Beshoi, Ben, and Sam

What is EZLogin?

EZLogin is an application that can:

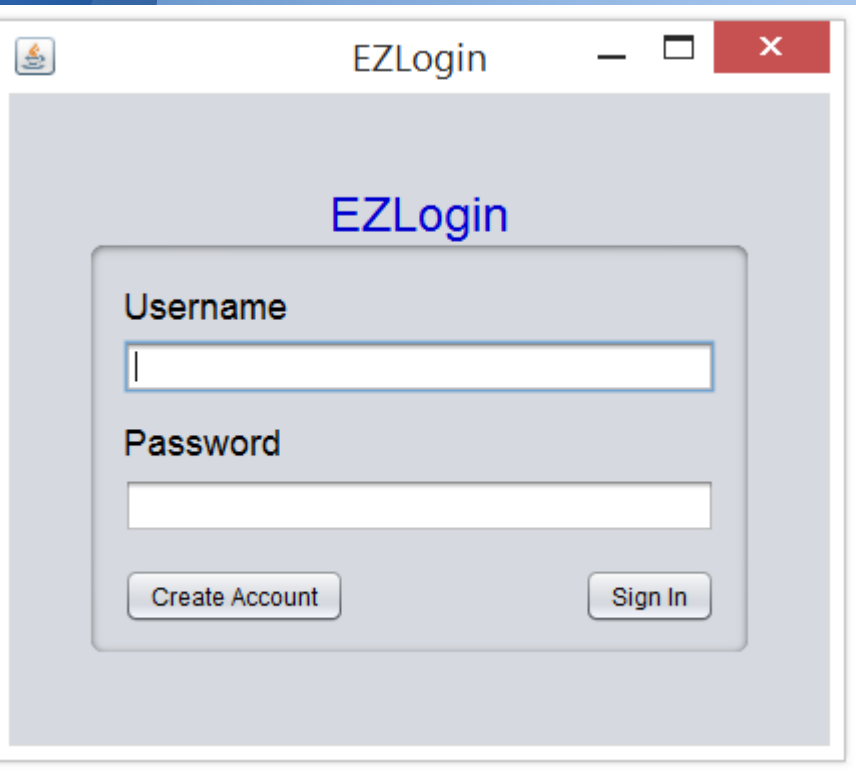

- Save your passwords in a vault.
- Log you into a number of online accounts automatically.
- Sign you up for specific accounts using input information.

This will allow you to create a strong internet presence, all from scratch.

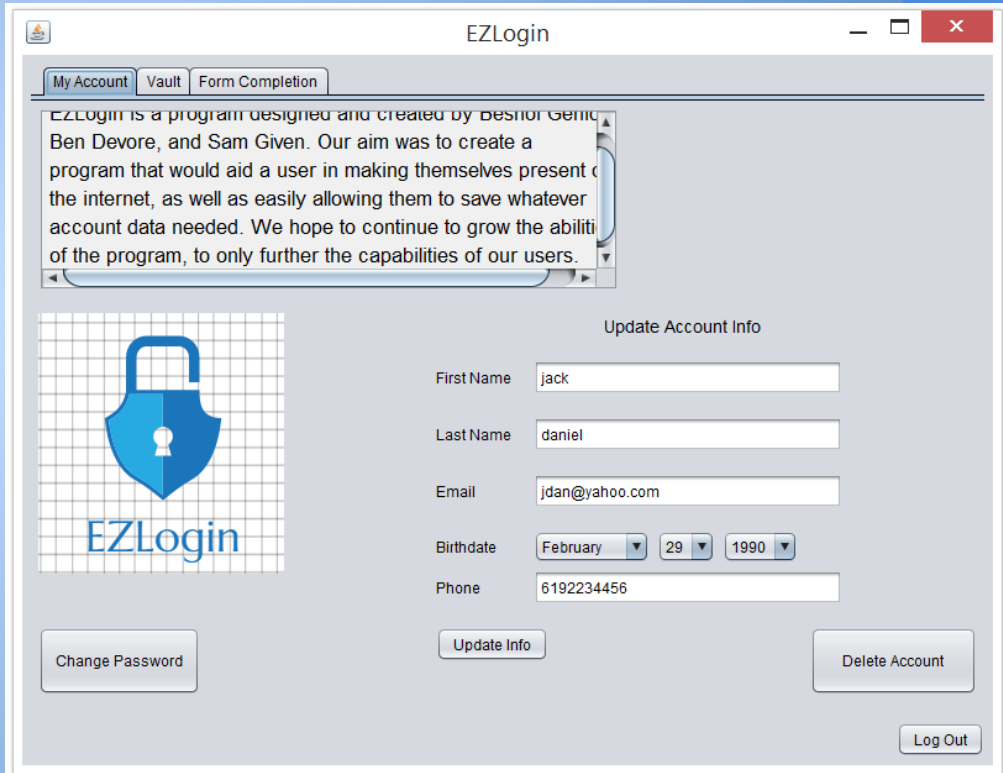

Our Data Structures

In our program, we implemented modified binary insert, two-dimensional LinkedLists, ArrayLists, and Arrays.

An in-depth look at EZLogin:

The image shows a window titled "EZLogin" with a standard Windows-style title bar (minimize, maximize, close buttons). The window has a light gray background. In the center, the text "EZLogin" is displayed in a blue, serif font. Below this, there is a login form with two input fields: "Username" and "Password". The "Username" field is a single-line text box, and the "Password" field is a single-line text box. Below the "Password" field, there are two buttons: "Create Account" and "Sign In".

The image shows a window titled "EZLogin" with a standard Windows-style title bar. The window has a light gray background. At the top, there are three tabs: "My Account", "Vault", and "Form Completion". The "My Account" tab is selected. Below the tabs, there is a text area containing the following text: "EZLogin is a program designed and created by Desnor Genic Ben Devore, and Sam Given. Our aim was to create a program that would aid a user in making themselves present on the internet, as well as easily allowing them to save whatever account data needed. We hope to continue to grow the abilities of the program, to only further the capabilities of our users." Below the text area, there is a blue padlock icon with the text "EZLogin" below it. To the right of the padlock icon, there is a section titled "Update Account Info" with several input fields: "First Name" (jack), "Last Name" (daniel), "Email" (jdan@yahoo.com), "Birthdate" (February 29 1990), and "Phone" (6192234456). Below the "Update Account Info" section, there are three buttons: "Change Password", "Update Info", and "Delete Account". At the bottom right, there is a "Log Out" button.
